DIGITAL TOOLS FOR DEMENTIA CAREGIVERS

Project co-funded with support from the European Commission. This communication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein

Submission number: 2022-1-NL01-KA220-ADU-000085899

CONTEXT

Digital Tools for Dementia Family Caregivers” project proposes a highly innovative educational model that leads to the development of a professional curriculum based on the use of Digital Competences applied to the caregiving process. It combines innovation with the need of supporting family members in providing assistance to patients living with dementia.

The target groups of the project are:

- family caregivers of those living with dementia
- Adult/senior educator leaders

All the partners will work together in the methodology development, design and implementation of the curriculum, research and creation of new teaching material/model, implementation of training, dissemination of results.

GOALS

01. CURRICULUM DESIGN

of the family caregivers through specific skills that can transform a necessity into a professional opportunity. The project aims to improve Digital Competences so the program focus about the use of the digital tools is expected

02. DIGITAL COMPETENCES

Generate Digital Competences through the use of digital tools and implementation of new technologies as virtual reality in caregivers training

03. RECOGNITION OF SKILLS

Validation of competences acquired thanks to the curriculum

04. EUROPEAN ADDED VALUE

European sharing of experiences, involvement of European specialized organizations that will bring their expertise in designing the caregivers' curriculum

PROJECT RESULTS

TRAINING METHODOLOGY

Training methodology development based on State of the art research and curriculum design conducted focus groups and interviews with family caregivers)

CURRICULUM

Development of Curriculum Pilot program of “Digital Tools for Dementia caregivers”

FINAL PUBLICATION

Implementation and testing of the curriculum in Kosovo, Greece and Bulgaria. Validation and final publication. The implementation workshops will include 250 caregivers
